

Wire Rope Socketing

JTN Course Code – MHS007

AIM & OBJECTIVES

The aim of this module is to provide the attendees with a thorough understanding of the safe working practices pertaining to resin socketing of wire ropes and to teach them the practical skills involved.

At the end of this module the attendee will be able to demonstrate competence in:

- The principles of resin socketing
- Safety requirements
- The approved methods and procedures involved in resin socketing
- Socketing preparations.
- Mixing and pouring fresh resin
- Carrying out socketing correctly

On completion of the instruction, there will be a course review followed by each delegate completing the following:

- Practically completing a resin wire rope socketing exercise.
- Underpinning knowledge assessment.

WHO SHOULD ATTEND

Those involved in the maintenance and socketing of wire ropes.

PREREQUISITES

Delegates successfully completing the Wire Rope Socketing programme will be awarded Wire Rope Socketing certification which has no validity

CERTIFICATION

There are no prerequisites for this course.

LOCATION

Training will be conducted at attendee's normal place of work or an alternative suitable training/assessment location.
